# Chorus Hub

Encrypted Evidence Sharing

Chorus Hub is a legally compliant collaborative workspace that facilitates the searching and sharing of data and intelligence files.

Store large and encrypted evidence files and share between colleagues, departments, external organisations and partners.

As the central repository for all relevant data pertaining to an investigation, Chorus Hub increases confidence and reduces

Fully searchable

Any data that is captured or sourced across the Chorus Suite can be indexed and searched. A global search functionality of internal databases and external sources can also be conducted from the Hub to unlock intelligence.

Secure collaboration

Encrypted evidence in Chorus Hub can be shared with anyone and any organisation. It can also give access to the CPS to present evidence and adhere to disclosure requirements.

Audited access

Chorus Hub has many different access levels available for users. Read-only through to full administration rights can be provided to authorised users. Access to the Hub and the data inside it is fully audited to see who has accessed what and when.

Browser based

Chorus Hub is an intuitive web browser based application. It can be accessed at any time, from any device, anywhere.

Victim and witness portal

Chorus Hub includes a portal that allows victims and witnesses of crime and abuse to easily upload evidence discreetly and securely. It can also be used by frontline officers to assist with victim support and case building.
