

Carbon Reduction Plan

2022

Supplier Name: Chorus Intelligence Limited

Publication Date: 16/09/2022

Commitment to achieving Net Zero

Chorus Intelligence Limited is committed to achieving Net Zero emissions by 2049.

Baseline Emissions Footprint

Baseline Year: 2021 (1/01/2021 – 31/12/2021)

The Carbon Reduction Plan has been completed in compliance with PPN 06/21. Our Carbon Emissions in 2021 were measured in line with GHG Protocol and include the greenhouse gases stated in the Kyoto Protocol. We will calculate our emissions on an annual basis, for the period 1st January to 31st December.

Baseline year emissions: 2021

| EMISSIONS | TOTAL (tCO ₂ e) | |
|------------------|--|-------|
| Scope 1 | 0.00 | |
| Scope 2 | 34.80 | |
| Scope 3 | 45.00 | |
| Included Sources | Business Travel | 16.20 |
| | Employee Commuting | 26.57 |
| | Upstream transportation and distribution | 1.15 |
| | Downstream transportation and distribution | 1.09 |
| | Waste generated in operations | 0.00 |
| Total Emissions | 79.79 | |

Current Emissions Reporting

Baseline Year: 2021 (1/01/2021 – 31/12/2021)

The Carbon Reduction Plan has been completed in compliance with PPN 06/21. Our Carbon Emissions in 2021 were measured in line with GHG Protocol and include the greenhouse gases stated in the Kyoto Protocol. We will calculate our emissions on an annual basis, for the period 1st January to 31st December.

Baseline year emissions: 2021

| EMISSIONS | TOTAL (tCO ₂ e) | |
|------------------|--|-------|
| Scope 1 | 0.00 | |
| Scope 2 | 34.80 | |
| Scope 3 | 45.00 | |
| Included Sources | Business Travel | 16.20 |
| | Employee Commuting | 26.57 |
| | Upstream transportation and distribution | 1.15 |
| | Downstream transportation and distribution | 1.09 |
| | Waste generated in operations | 0.00 |
| Total Emissions | 79.79 | |

Baseline Year & Current Reporting Year

Due to 2021 being the first year we have measured our CO₂e emissions, the report for the Baseline Year and Current Reporting year contains the same figures. Due to this, the explanations below apply to both sets of data:

Scope 1

Scope 1 is reported as 0 tCO₂e in 2021 due to Chorus Intelligence having no boilers, on-site manufacturing, a fleet or f-gases to report emissions on.

Scope 2

Within Scope 2, we have measured the emissions released from working from home and the consumption of purchased gas and electricity. With all employees making the most of hybrid working, we have calculated 2 out of 5 days as spent working from home and the other 3 from the office. Heating, lighting and computer consumption have all been taken into account to calculate emissions released due to working from home.

Scope 3

Within Scope 3, we have calculated the emissions released from business travel, employee commuting and upstream and downstream transportation and distribution. We have requested the CO₂e released from our waste removal provider, however, they don't currently have this data available. We have been assured that this is something they are looking to be able to provide for the next reporting year and will include this in our report for 2022 onwards.

Emissions Reduction Targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 71.81tCO₂e by 2027. This is a reduction of 10%

Carbon Reduction Projects

Over the next year, we are committed to reducing our emissions by:

- Carrying out a needs assessment on in-person meetings and converting to virtual meetings;
- Car share to work, events and customer sites and utilising public transport for long journeys;
- Ensuring all lighting is LED with sensors in every room to minimise unnecessary electricity consumption in the office;
- Recycling all waste and signposting this throughout the office.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.
